**Product Code:** Cheetah 12 Base Shotgun  
**Availability:** In Stock

**Price: \$499.00**

### Description

The Cheetah 12 is the next evolution in 12 Gauge Kalashnikov styled shotguns. This shotgun is similar to the Russian Saiga IZ 109 AK shotgun in design but offers many more shooter friendly features. The Cheetah 12 interchanges with most Saiga parts like stick mags, handguards & muzzle devices. You can easily upgrade the rear stock to a Tactical set up if you desire. Ambi controls allow you to use the safety selector from both sides and left side charging handle is a real plus! Adjustable rear sight and Fiber Optic front sight

- Semi-automatic
- Chrome-lined 19" barrel
- 3" chamber
- (1) 5rd mag included
- Hammer forged bolt
- Left side charging handle
- Bolt hold open button
- Any aftermarket AK pistol grip will fit
- Accepts any Saiga 12ga mags
- Adjustable rear sight

- Fiber optic front sight
- Threaded barrel for Saiga style compensators
- Four position gas system -- off, low, med, high
- AR-15 style ambidextrous selectors
- The fixed stock can be removed and an AR buffer tube attached so that an AR collapsible stock can be added easily
- Front forearm can be replaced with Saiga rails and aftermarket forearms
- Reversible rear sling loop initially set up for right hand shooters can be switched to left side
- Removable FCG cartridge
- The back portion of the dust cover is secured additionally by the use of a re-designed recoil spring guide which has two small spears that insert into two small holes in the rear of the dust cover
- Comes with one-year manufacturer warranty
