Product Code: PIMPHAND Falcata-Lower
Availability: In Stock

Price: \$139.00

Description

Based upon our Aklys Falcata Rifle series lower, Aklys Defense is proud to announce our partnership with our friend Paul and Student of the Gun to offer a very special, "PIMPHAND" AR-15 lower receiver.

Putting the smackdown on tyrants and enemies of freedom everywhere, Professor Paul Markel, the Pimphand of America, is pleased to announce the official Pimphand AR-15 Lower Receiver. (Full build outs and kits will be available soon but get your lower locked in now!)

This high quality, custom designed, premium AR-15 style lower is sure to class up your gun safe.

Features include a dedicated Student of the Gun "SOTG" serial number, featured logo and the title "The Pimphand" proudly displayed on the side. Selector Lever Verbiage: (Safe) "Quiet Time, (Fire) "Listen Louder", (Position 3) "Sweet Buddha!" This is a premium quality forged 7075 lower with beyond Mil-Spec features, such as threaded rear detent hole and threaded bolt catch pin for

an easy build and ultimate reliability.

Limited quantities available.

The final batch of Pimphand lower arrives 1/6/19 and will immediately begin shipping out. Last chance to get one of these limited run items!!!!

The roots of the Falcata can be traced back to ancient Iberian warriors that used the devastating sword to so effectively protect their homeland from conquerors. Much like the Falcata of old, the Aklys Defense Falcata is the modern day warrior's weapon of choice to accomplish any mission.

Our rifles are built to exceed Military Specifications to ensure that you get the best quality, reliability, accuracy, and performance out of your rifle. We are now offering you the building block to make your own special AR-15 style rifle. These are a truly enhanced lower receiver at a great price!

Features:

- Our upper and lower receivers are forged 7075 aluminum and Type III hard coat anodized black for durability.
- Lower features a nylon tipped upper tensioning screw.
- Bolt catch is attached via a set-screw which is included.
- Rear take down pin detent and spring are retained via a set-screw which is included.
- Multi-cal marked, perfect for 5.56, .300BLK, etc.
